

Pond cleaned out

Working on the pond Photo L.Joyner

Thanks to a grant received from the Mendip Hills AONB Sustainable Development Fund, Compton Martin has been able to arrange for the cleaning out of the Village Pond.

It was originally hoped that the work would take place in the spring of 2010, but it soon became apparent that there was a considerable amount of paperwork to be completed and advice sought, and then of course there was the minor problem of moorhen ducklings on the pond, quite a lot of them.

The work was completed in two days, thanks to the contractor bringing in extra equipment and man power in order to achieve this. Thanks are due to the pond committee and all parishioners who assisted in this major achievement.
